

Anthem Blue Cross enhances process for submitting behavioral health authorizations now available

Published: Jun 1, 2020 - **Products & Programs** / Behavioral Health

Anthem Blue Cross (Anthem) is excited to announce an enhanced process for submitting behavioral health authorizations. We have enhanced the Interactive Care Reviewer (ICR) tool on the Availity Portal to provide the opportunity for quicker resolutions.

The ICR tool on the Availity Portal will now utilize sophisticated clinical analytics in order to provide an immediate decision on an authorization for higher levels of care such as inpatient, intensive outpatient (IOP) and partial hospitalization (PHP). Here are a few of the many reasons behavioral health providers will benefit from using ICR with the newly enhanced functionality:

1. Reduction of administrative burden
2. Quicker access to care for some services deemed eligible for our immediate decisions
3. Increased member focus
4. Prioritizes more complex cases
5. Reduced possibility of errors such as illegible faxes
6. Maximize the amount time spent with members

Follow these instructions to access ICR through the Availity Portal (www.Availity.com)

First, ask your Availity administrator to grant you the appropriate role assignment.

Do you create and submit prior authorization requests?

Required role assignment: *Authorization and Referral Request*

Do you check the status of the case or results of the authorization request?
