HEDIS® 2018 Commercial Results Are In

Published: Dec 1, 2018 - **Administrative**

Thank you for participating in the annual Healthcare Effectiveness Data and Information Set (HEDIS) commercial data collection project for 2018. You play a central role in promoting the health of our members. By documenting services in a consistent manner, it is easier for you to track care that was provided and identify any additional care that is needed to meet the recommended guidelines. Consistent documentation and responding to our medical record requests in a timely manner eliminates follow up calls to your office and also helps improve HEDIS scores, both by improving care itself and by improving our ability to report validated data regarding the care you provided. The records that you provide to us directly affect the HEDIS results that are listed in the attachment.
