

ICD-10-CM Coding Guidelines and Laterality: Professional

Published: Jul 1, 2019 - **Policy Updates** / Reimbursement Policies

With the adoption of ICD-10-CM code set, we were introduced to diagnosis codes that now indicate the laterality of a condition. At present, diagnosis code descriptions indicate whether the condition is present on the left, right or exists bilaterally. A recent review of our claim denial trends has identified that many providers are not billing appropriately in regards to laterality. For specific guidance for reporting a diagnosis that designates a condition on the left and right versus a bilateral diagnosis, refer to the *ICD-10-CM Official Guidelines for Coding and Reporting FY 2019*, specifically, the General Coding Guidelines Section and the Chapter Specific Sections. Please carefully consider the information contained in the ICD-10-CM Coding Guidelines when trying to decide between reporting a condition using left diagnosis and right diagnosis codes versus a bilateral diagnosis code.
