

Interactive Care Reviewer: Anthem's online prior authorization tool targeted to launch in Q3

Published: Jul 1, 2020 - Administrative

Exciting news! We are introducing Interactive Care Reviewer (ICR), Anthem's online authorization tool for members enrolled in Anthem plans during 3rd quarter 2020. ICR offers a streamlined process to request and check the status of medical and behavioral health inpatient and outpatient procedures.

We'll provide more information in a future edition of *Provider News* as well as *Availity News* and Announcements regarding the launch of ICR.

What benefits/efficiencies does the ICR provide?

- **Receive a comprehensive view of all your prior authorization requests.** You have a complete view of all the utilization management requests you submitted online, including the status of your requests and specific views that provide case updates and a copy of associated letters.
- **Inquiry capability.** Ordering and servicing physicians and facilities can locate information on preauthorization requests for those they are affiliated with, including requests previously submitted via phone, fax and ICR.
- **Request and check the status of clinical appeals.** You can use ICR to request a clinical appeal for denied authorizations and access letters associated with the appeal.
- **Reduces the need to fax.** The ICR allows text detail as well as images to be submitted along with the request.
- **No additional cost to you.** The ICR is a no-cost solution that's easy to learn and even easier to use.
