NEW YORK Provider Communications

Let's Vaccinate

Published: Jun 1, 2021 - **Products & Programs**

Healthcare providers are often seen as trusted sources of medical information and are in a unique position to improve lives and community health. Research shows that a strong vaccination recommendation from a provider is the greatest motivator for people of all ages to vaccinate themselves and their family members against serious infectious diseases.

[Let's Vaccinate](#) offers providers tools and strategies to aid in vaccinating people of all ages. This website will help your practice:

- Address disparities for vaccine-preventable diseases
- Identify and fill workflow gaps, including assessing vaccination status, enhancing vaccine communications, providing vaccine education, and improving vaccine management and administration in your office;
- Access up-to-date guidance from the Centers for Disease Control and Prevention (CDC) for vaccines; and
- Connect with your state immunization program, local immunization coalition or other vaccine advocates in your community to collaborate.

Keeping all patients healthy and safe requires the support and collaboration of the entire healthcare industry. So, together, let's vaccinate.

Let's Vaccinate is a collaboration of Anthem, Inc., Pfizer Inc., and Vaccinate Your Family.
