Often, healthcare costs incurred by Anthem Blue Cross and Blue Shield (“Anthem”) members are a result of recommendations made by their physicians. As an Anthem participating physician, you have the ability to help reduce your patients’ healthcare costs. Choices, such as where to refer a member for negative pressure wound therapy, can have a significant impact on your patients’ ultimate out-of-pocket liability. We are sharing the following information with you for consideration when referring patients for negative pressure wound therapy.

Our members, your patients, often participate in health benefit plans that may have coinsurance or deductibles. Your patients may experience significant differences in cost depending on which negative pressure wound therapy providers the members are referred to.
