

Specialty pharmacy medical step therapy drug list clarification

Published: Oct 1, 2019 - **Products & Programs** / Pharmacy

In the February and May editions of *Provider News*, we shared that the following clinical criteria will be effective May 1, 2019 for the non-oncology uses of these drugs. We will now also begin the medical step therapy review process for **oncology** uses of these drugs starting October 1, 2019.

Colony Stimulating Factor Agents ING-CC-0002

Effective for dates of service on and after May 1, 2019, the following specialty pharmacy codes from new or current criteria will be included in our existing specialty pharmacy medical step therapy review process. Zarxio® will be the preferred short-acting colony stimulating factor (CSF) agent over Neupogen®, Granix®, and Nivestym™®.

Pre-service clinical review of these specialty pharmacy drugs will be managed by AIM Specialty Health® (AIM), a separate company.

Additional information regarding biosimilar drugs can be found by viewing the attached PDF reference document, *Biosimilar Drugs – What are they?*
