

Timely access regulations and language assistance program

Published: Oct 1, 2019 - Administrative

Blue Cross of California dba Anthem Blue Cross and Anthem Blue Cross Life & Health Insurance Company (collectively, Anthem”) are committed to keeping you, our network partners, updated on our activities related to our compliance with the Department of Managed Health Care (DMHC) and the California Department of Insurance (CDI) Timely Access to Non-Emergency Health Care Services Regulations (the “Timely Access Regulations”), respectively. Anthem maintains policies, procedures, and systems necessary to ensure compliance with the Timely Access Regulations, including access to non-emergency health care services within prescribed timeframes (also referred to as the “time elapsed standards” or “appointment wait times”). Anthem can only achieve this compliance with the help of our provider network partners, you!

There are many activities that are conducted to support compliance with the regulations and we need you, as well as covered individuals, to help us attain the information that is needed. These studies allow our Plan to determine compliance with the regulations.

The activities include, but are not limited to the following:

- Provider Appointment Availability Survey
- Provider Satisfaction Survey
- Provider After – Hours Survey

These surveys are currently in process; please review this information with your office staff so they are prepared and understand the importance of each provider’s participation in each of the surveys.

We appreciate that in certain circumstances time-elapsed requirements may not be met. The Timely Access Regulations have provided exceptions to the time-elapsed standards to address these situations:

Extending Appointment Wait Time: The applicable waiting time for a particular appointment may be extended if the referring or treating licensed health care provider, or the

health professional providing triage or screening services, as applicable, acting within the scope of his or her practice and consistent with professionally recognized standards of practice, has determined and noted in the relevant record that a longer waiting time will not have a detrimental impact on the health of the patient.

Preventive Care Services and Periodic Follow-up Care: Preventive care services and periodic follow up care are not subject to the appointment availability standards. These services may be scheduled in advance consistent with professionally recognized standards of practice as determined by the treating licensed health care provider acting within the scope of his or her practice. Periodic follow-up care includes but is not limited to, standing referrals to specialists for chronic conditions, periodic office visits to monitor and treat pregnancy, cardiac or mental health conditions, and laboratory and radiological monitoring for recurrence of disease.

Advanced Access: The primary care appointment availability standard may be met if the primary care physician office provides “advanced access.” “Advanced access” means offering an appointment to a patient with a primary care physician (or nurse practitioner or physician’s assistant) within the same or next business day from the time an appointment is requested (or a later date if the patient prefers not to accept the appointment offered within the same or next business day).

We hope this clarifies Anthem’s expectations and your obligations regarding compliance with the *Timely Access Regulations*. Our goal is to work with our providers to successfully meet the expectations for the requirements with the least amount of difficulty and member abrasion.
