
Webinar: How to Leverage Telehealth to Care for Behavioral Health Patients During COVID-19 and Beyond

Published: Jun 1, 2020 - **Products & Programs** / Behavioral Health

Attend this free webinar to assist Behavioral Health providers in maximizing the telehealth experience.

The psychological effects of COVID-19 reach far beyond those who have fallen ill with COVID-19 or lost a loved one to the virus. The need for behavioral health services will increase due to the fear and life-altering changes the pandemic has created. And for those who are already in treatment for behavioral health or other medical conditions, those appointments have been interrupted or even discontinued due to the pandemic.

Using telehealth can be a better way to continue caring for your patients or help patients access care, while promoting social distancing.

REGISTER NOW FOR THIS WEBINAR on Thursday, June 11th at 2:00 PM (ET) and hear from Elizabeth Bonanno, MD, Behavioral Health Medical Director at Anthem, Mia Finkelston, MD, Medical Director, Online Care Group, and Lindsay Henderson, PsyD, Director of Psychological Services at Amwell about ways to leverage telehealth to treat patients in need of care.

During the [webinar](#), you'll hear about:

- The impact of COVID-19 on behavioral health in general and within at-risk populations
- Lessons learned from past epidemics and quarantines
- Best practices for caring for behavioral health patients virtually
- Telehealth 101 tips for providers looking to get started

Providers of all specialties are invited to attend this webinar, which will place emphasis on leveraging telehealth for behavioral health services.
