Strategic Provider System to be implemented in August 2021

Published: Aug 1, 2021 - Administrative

In July, Anthem advised of the delay in the implementation of our new data management system called Strategic Provider System (SPS), which was first announced in the June issue of [Provider News](#). We are pleased to advise that SPS will now be implemented in August, and will replace our legacy internal provider data management system for Maine providers. This investment in advanced technology will significantly improve provider data accuracy and transparency, enhancing the overall provider experience. New system features strengthen our ability to match submitted claims for more accurate pricing and processing.

System upgrades special notice

We will be implementing SPS upgrades from August 6 through August 12. Provider demographic updates submitted during this time will be processed after August 12. We appreciate your patience as we upgrade our systems.

Next steps: New Provider Data Maintenance coming soon

Beginning in September 2021, the second phase of our improvement will be integration with Availity's Provider Data Management (PDM) functionality, which will roll out in phases. Through this tool, providers can view, maintain, update, and attest provider demographic information is accurate for Anthem (and other health plans) in one easy-to-use portal. This service will replace our *Provider Maintenance Form* in the coming months. The PDM service also features a simplified *quick verification* process, which enables providers to complete the required verifications online – eliminating the need to fax or email or use separate online forms.

Get ready for the change today

If your organization is not already registered on Availity portal, we strongly encourage you to get started right away. Your organization's designated administrator can go to the [Availity portal](#) to register and to find other helpful information about using Availity. Availity is Anthem's secure provider portal platform where providers can enjoy the convenience of digital transactions including prior authorization submission, claims submission and benefit and eligibility look-up.

Starting with claims submitted after August 12, Anthem will deny claims submitted without a billing national provider identifier (NPI). Submitting claims with complete and correct data is critical to help ensure we are able to process your claims efficiently and accurately. Please submit your full address including your line 2 address (suite #, unit etc.) when applicable. All data fields on claims are used when building your claim record. Review your billing practices carefully to ensure provider tax identification number (TIN), billing national provider identifier (NPI), taxonomy code, and servicing/rendering provider information (if applicable) are submitted in the appropriate fields.

Register now for our August CME webinars

Published: Aug 1, 2021 - Administrative

Join us throughout the year in a new Continuing Medical Education (CME) webinar series as we share practices and success stories to overcoming barriers in achieving clinical quality goals, attaining better patient outcomes and improving STARs ratings.

Program objectives:

- Learn strategies to help you and your healthcare team improve your performance across a range of clinical areas.
- Apply the knowledge you gain from the webinars to improve your organization's quality and STARs ratings.

Attendees will receive one CME credit upon completion of a program evaluation at the conclusion of each webinar.

Registration for our August webinars is now available.

Motivating Patients to Adhere to Cervical Cancer Prevention and Screening Recommendations

Date: Tuesday, August 3, 2021

Time: 12:00 p.m. ET

Presented by the American Cancer Society (ACS), this webinar will focus on the pandemic's impact on cancer screenings and implications of delayed cervical cancer screenings and will provide tools and tactics to engage and motivate your patients to adhere to ACS prevention and screening recommendations.

10 Best Practices for Improving Pharmacy Quality Measures

Date: Thursday, August 12, 2021

Time: 1:00 p.m. and 3:00 p.m. ET (*two sessions offered*)

This webinar will explain the role of pharmacy quality measures on overall outcomes and offer practical approaches to improving pharmacy quality measures.

6 Ways to Improve Risk Adjustment Documentation Accuracy

Date: Tuesday, August 17, 2021

Time: 12:00 p.m. and 3:00 p.m. ET (*two sessions offered*)

This webinar will offer best practices to documentation and explain how documentation and coding can enhance patient outcomes.

Register here for these upcoming clinical quality webinars!

Telehealth visits can impact after-hospitalization follow-up care for mental illness

Published: Aug 1, 2021 - Administrative

Significant reductions in missed appointments

Telehealth visits are having a significant impact on missed appointments according to a study published in [Counselling Psychology Quarterly](#). Prior to transitioning to telehealth, clinicians in the study “Psychotherapy at a public hospital in the time of COVID-19: telehealth and implications for practice,¹” experienced a 14.25% missed appointment rate. After transitioning to telehealth, the missed appointment rate fell to 5.63%.

Rate of missed appointments before and after transitioning to telehealth

The graph below illustrates the changes in the average rate of missed appointments (cancellations and no-show) for each of the eight clinicians in the study between the periods before and after the transition to telehealth.

<https://www.tandfonline.com/doi/full/10.1080/09515070.2020.1777390>

“While there are a number of limitations to consider regarding this data, [which is further discussed in the study], the statistically significant reduction in missed appointments pre-and-post [digital] transition is striking,” cited in the study report.

Telehealth and telephone visits with members after a behavioral health (BH) inpatient stay meet HEDIS[®] criteria for the measure: Follow-up after Hospitalization for Mental Illness (FUH). With transportation being one of the barriers to after hospitalization follow-up, telehealth visits could be an ideal solution.²

The FUH HEDIS measure evaluates:

- Members (6 years and older) who were hospitalized for treatment of selected mental illness diagnoses and who had a follow-up visit with a mental health practitioner.

Two areas of importance for this HEDIS measure are:

1. The percentage of behavioral health inpatient discharges for which the member received follow-up within 7 days after discharge.
2. The percentage of behavioral health inpatient discharges for which the member received follow-up within 30 days after discharge.

These two consecutive follow-up appointments are paramount to positive outcomes as well as meeting this HEDIS measure. Telehealth visits can greatly increase the likelihood of keeping follow-up appointments leading to reduced numbers of rehospitalization and more favorable outcomes for these patients. To learn more about the [FUH HEDIS measure](#), visit the [NCQA website](#).

HEDIS® is a registered trademark of the National Committee for Quality Assurance (NCQA).

Clearing up coding confusion for retinal eye exams (DRE)

Published: Aug 1, 2021 - Administrative

3072F: new language about two-year compliance

The Comprehensive Diabetes Care HEDIS[®] Measure Retinal Eye Exam (DRE) values the percent of adult members ages 18 to 75, with diabetes (type 1 and type 2), who had a retinal eye exam during the measurement year.

Changes to 3072F

The definition for the code 3072F (negative for retinopathy) has been redefined to: *Low risk for retinopathy (no evidence of retinopathy in the prior year)*. This can be particularly confusing because it would not be used at the time of the exam. It would be used the following year, along with the exam coding for the current year, to indicate that retinopathy was not present the previous year.

A simpler coding solution

Using these three codes count toward the DRE measurement if they are billed in the current measurement year, **or** the prior year. This means you can submit the appropriate code at the time of the exam, and it covers both years:

- 2023F - Dilated retinal eye exam with interpretation by an ophthalmologist or optometrist documented and reviewed; without evidence of retinopathy (DM)
- 2025F7 - standard field stereoscopic retinal photos with interpretation by an ophthalmologist or optometrist documented and reviewed: without evidence of retinopathy (DM)
- 2033F - Eye imaging validated to match diagnosis from 7 standard field stereoscopic retinal photos results documented and reviewed: without evidence of retinopathy (DM)

For more about diabetic retinopathy, visit [CMS.gov](https://www.cms.gov) or use [this link to read more](#).

Meeting the measurement for all diabetes care

These exams are also important in evaluating the overall health of diabetic patients, as well as meeting the Comprehensive Diabetes Care HEDIS measure:

- Hemoglobin A1c (HbA1c) testing
- HbA1c poor control (>9.0%)
- HbA1c control (<8.0%)
- Retinal eye exam performed

- Blood pressure control (<140/90 mm Hg)

Record your efforts in the member's medical records for the HbA1c tests and results, retinal eye exam, blood pressure, urine creatinine test and the estimated glomerular filtration rate test. Meeting the mark and closing gaps in care is key to good health outcomes.

HEDIS® is a registered trademark of the National Committee for Quality Assurance (NCQA).

New! Schedule appointments online through Availity

Published: Aug 1, 2021 - **Administrative** / Digital Tools

We're making it even easier for you to schedule online appointments through the Appointment Scheduler App on [Availity](#). The Appointment Scheduler App gives you secure access to new appointment requests. You'll also receive digital access to the member's ID number, contact information and any special health information.

Appointment Scheduler App features include:

- Manage appointment requests
- Configure appointment availability
- Notifications for new visit requests on your Availity dashboard
- Members are automatically notified by text or email when appointments are confirmed

Article Attachments

Administrators, administrator assistants and users with the role of 'office staff' will have access to the Appointment Scheduler App.

To access Appointment Scheduler, log onto Availity.com and select Anthem from Payer Spaces. The Appointment Scheduler App will be located in your Applications menu. To learn more about the new App, go to the Custom Learning Center in Availity and keyword search Appointment Scheduler.

Submitting prior authorizations is getting easier

Published: Aug 1, 2021 - **Administrative** / Digital Tools

Anthem is transitioning to Availity Authorization

You may already be familiar with the Availity Authorization App because millions of providers are already using it to submit prior authorizations for other payers. We are eager to make it available to providers to submit prior authorizations for Anthem members, too. In September 2021, you can begin using the same authorization app you use for other payers. We hope to make it easier than ever before to submit prior authorization requests to Anthem.

Current prior authorization app Interactive Care Reviewer (ICR) is still available

If you need to refer to an authorization that was submitted through ICR, you will still have access to that information. We've developed a pathway for you to access your ICR dashboard. You will simply follow the prompts provided through the Availity Authorization App.

Innovation in progress

While we grow the Availity Authorization App to provide you with Anthem-specific information, we've provided access to ICR for:

- Appeals
- Behavioral health authorizations
- FEP authorizations
- Medical specialty Rx

Notices in the Availity Authorization App will guide you through the process for accessing ICR for *Reserved Auth/Appeals* functions.

Training is coming soon

If you aren't already familiar with the Availity Authorization App, live training and recorded webinars will be available in September and announced in the next issue of *Provider News*.

Give it a try!

Accessing the Availity Authorization App is easy. Just log onto Availity.com and the Authorization icon is on the home screen. You can also access the App through the *Patient Registration* tab by selecting *Authorization and Referral*.

Digital Provider Enrollment Application available for providers who do not use CAQH

Published: Aug 1, 2021 - **Administrative** / Digital Tools

We continue to make it easier and more convenient to become a participating provider. The Digital Provider Enrollment Application has been designed to speed up the enrollment process, allow providers to submit data at one time, and obtain real-time updates on the status of an application.

Access to the application is available through [Availity](#), Anthem's secure web-based provider portal. New and current [Availity](#) users should ensure their user ID has the correct access. Please ensure that you have been assigned access to Provider Enrollment.

Digital Provider Enrollment offers many benefits:

- Now, non-credentialed provider types who do not have a CAQH ID can also use the digital enrollment process
- Continues to support enrollment of professional providers, whose organizations do not have a credentialing delegation agreement with Anthem.
- New individual providers or groups can request a contract.
- Existing groups can add providers to their existing contract.
- Providers can check the status of an application in real-time using the enrollment dashboard.

To use the new Digital Enrollment application, please ensure your provider data on CAQH is current and in a *complete* or *re-attested* status, then log into [Availity](#) and use the following navigation: Choose your state > Payer Spaces > Provider Enrollment.

1271-0821-PN-ME

Reimbursement policy update: Claims requiring additional documentation (facility)

Published: Aug 1, 2021 - [Policy Updates](#) / Reimbursement Policies

In our May issue of *Provider News*, we announced a threshold increase for the itemized bill requirement for outpatient facility claims. This requirement will remain; however, effective August 1, 2021, we will remove the threshold amount from the policy language for outpatient facility claims and inpatient stay claims.

For more information about this policy, visit the [Reimbursement Policies](#) page at [anthem.com](#).

1260-0821-PN-NE

URL: <https://providernews.anthem.com/maine/article/reimbursement-policy-update-claims-requiring-additional-documentation-facility-29>

Reimbursement policy update: Distinct Procedural Service, Modifiers 59 and XE, XP, XS, & XU

Published: Aug 1, 2021 - **Policy Updates** / Reimbursement Policies

Beginning with dates of service on or after November 1, 2021, we will update the Related Coding section to indicate no modifier override for the neurostimulator device when billed with the surgical code for the implantation of the neurostimulator device.

The following code pairs have been added to the Related Coding Section:

- L8680 when reported with 63655
- L8679 when reported with 63650
- L8679 when reported with 63655
- L8687 when reported with 63650
- L8687 when reported with 63655

For more information about this policy, visit the [Reimbursement Policies](#) page at [anthem.com](#).

1261-0821-PN-NE

Reimbursement policy update: Virtual Visits - professional and facility

Published: Aug 1, 2021 - **Policy Updates** / Reimbursement Policies

Beginning with dates of service on or after November 1, 2021, Anthem's current Telehealth policy will be renamed Virtual Visits. We allow reimbursement for professional and facility Virtual Visits when interactive services occur between the member and the provider, when they are not in the same location, unless provider, state, or federal contracts and/or mandates indicate otherwise. Reimbursement is allowed for professional and facility Virtual Visits rendered at the distant site via live audio visual services and for Remote Patient Monitoring. Services reported by a professional provider with a place of service Telehealth (02) will be eligible for non-office place of service reimbursement. In addition, facility Virtual Visits will be allowed for the originating site fee. The Related Coding section details the modifiers allowed for reimbursement.

For more information about this policy, visit the [Reimbursement Policies](#) page at [anthem.com](https://www.anthem.com).

Transition to AIM Specialty Health Imaging of the Heart Clinical Appropriateness Guideline for computed tomography to detect coronary artery calcification

Published: Aug 1, 2021 - **Products & Programs**

Effective November 1, 2021, Anthem will transition the clinical criteria for medical necessity review of computed tomography to detect coronary artery calcification to AIM Imaging of the Heart Clinical Appropriateness Guideline.

As part of this transition of clinical criteria, the following procedures will be subject to prior authorization at AIM:

CPT code	Description
75571	Computed tomography, heart, without contrast material, with quantitative evaluation of coronary artery calcium
S8092	Electron beam CT (also known as ultrafast CT, cine CT)

As a reminder, ordering and servicing providers may submit prior authorization requests to AIM in one of several ways:

- Access AIM's **ProviderPortal**_{SM} directly at providerportal.com. Online access is available 24/7 to process orders in real-time, and is the fastest and most convenient way to request authorization.
- Access AIM via the Availity Web Portal at availity.com
- Call the AIM Contact Center toll-free number at 866-714-1107, Monday – Friday, 8:00 a.m. – 5:00 p.m.

For questions related to guidelines, please contact AIM via email at aim.guidelines@aimspecialtyhealth.com. Additionally, you may access and download a copy of the current and upcoming guidelines [here](#).

URL: <https://providernews.anthem.com/maine/article/transition-to-aim-specialty-health-imaging-of-the-heart-clinical-appropriateness-guideline-for-computed-tomography-to-detect-coronary-artery-calcification-1>

Specialty dose rounding program for certain oncology medications

Published: Aug 1, 2021 - **Products & Programs** / Pharmacy

Providers treating members covered by Anthem plans will be asked in selective circumstances to voluntarily reduce the requested dose to the nearest whole vial for over 40

As part of the online prior authorization process, providers will be asked about the dosage of the medication being requested in pop-up questions:

- Whether or not the recommended dose reduction is acceptable
- If the patient is considered unable to have his or her dose reduced, then a second question will appear asking for the provider's clinical reasoning.

For prior authorization requests made outside of the online AIM Provider Portal (i.e. via phone or fax) the same questions will be asked by the registered nurse or medical director reviewing the request. **Since this program is voluntary, the decision made regarding dose reduction will not affect the final decision on the prior authorization.**

The dose reduction questions will appear only if the originally requested dose is within 10 percent of the nearest whole vial. This threshold is based on the current medical literature and recommendations from the Hematology and Oncology Pharmacists Association (HOPA) it is appropriate to consider dose rounding within 10 percent. View the HOPA recommendations [here](#).

The voluntary dose reduction program only applies to the specific oncology drugs listed below. Providers can view prior authorization requirements for Anthem members on the Medical Policy & Clinical UM Guidelines page at [anthem.com](https://www.anthem.com).

Drug Name	HCPCS Code	Drug Name	HCPCS Code
Abraxane (paclitaxel protein-bound)	J9264	Kadcyla (ado-trastuzumab emtansine)	J9354

Specialty dose rounding program for certain non-oncology medications effective August 1, 2021

Published: Aug 1, 2021 - **Products & Programs** / Pharmacy

We are committed to being a valued healthcare partner in identifying ways to achieve better health outcomes, lower costs and deliver access to a better healthcare experience for consumers.

Effective with dates of service on or after August 1, 2021, providers treating members covered by Anthem Commercial plans may be asked to consider voluntarily reducing the requested dose to avoid vial wastage for select non-oncology specialty medications. The dose reduction suggestion will only be made if the originally requested dose is within 10% of the nearest whole vial.

Since this program is voluntary, the decision to participate will not affect the final decision on the prior authorization.

Reviews for these specialty drugs will continue to be administered by IngenioRx®.

As part of the prior authorization process, providers may be asked the following questions:

- Whether the suggested dose reduction is clinically acceptable
- Clinical reasoning if the dose reduction is not appropriate

Providers can view prior authorization requirements for Anthem members on the Medical Policy & Clinical UM Guidelines page at [anthem.com](https://www.anthem.com).

Providers should continue to verify eligibility and benefits for all members prior to rendering services.

If you have questions, please call the Provider Service phone number on the back of the member's ID card.

Immune globulin adjusted body weight dosing program begins August 1, 2021

Published: Aug 1, 2021 - **Products & Programs** / Pharmacy

We are committed to being a valued healthcare partner in identifying ways to achieve better health outcomes, lower costs and deliver access to a better healthcare experience for consumers.

Effective with dates of service on or after August 1, 2021, providers treating members covered by Anthem commercial plans may be asked to consider voluntarily using adjusted body weight (AdjBW) dosing compared to actual body weight (ABW) dosing for immune globulin medications. The dose change using AdjBW will only be made if the member's actual body weight is more than 20% of the ideal body weight (IBW).

Since this program is voluntary, the decision to participate will not affect the final decision on the prior authorization.

Reviews for the immune globulin medications will continue to be administered by IngenioRx® as these will specifically target specialty non-oncology indications.

As part of the prior authorization process, providers may be asked the following questions:

- Whether the suggested use of AdjBW and change in dose is clinically acceptable
- Clinical reasoning if the dose change (using AdjBW) is not appropriate

Providers can view prior authorization requirements for Anthem members on the Medical Policy & Clinical UM Guidelines page at [anthem.com](https://www.anthem.com).

Providers should continue to verify eligibility and benefits for all members prior to rendering services.

If you have questions, please call the Provider Service phone number on the back of the member's ID card.

Anthem to update formulary lists for commercial health plan pharmacy benefit

Published: Aug 1, 2021 - **Products & Programs** / Pharmacy

Effective with dates of service on and after October 1, 2021, and in accordance with the IngenioRx Pharmacy and Therapeutics (P&T) process, Anthem will update our drug lists that support commercial health plans.

Updates include changes to drug tiers and the removal of medications from the formulary.

Please note, this update does not apply to the Select Drug List and does not impact Medicaid and Medicare plans.

To help ensure a smooth member transition and minimize costs, providers should review these changes and consider prescribing a drug on formulary or on a lower tier, if appropriate.

Specialty pharmacy updates effective November 1, 2021

Published: Aug 1, 2021 - **Products & Programs** / Pharmacy

Prior authorization updates

Effective for dates of service on and after November 1, 2021, the following specialty pharmacy codes from current or new clinical criteria documents will be included in our prior authorization review process.

Please note, inclusion of national drug code (NDC) code on your claim will help expedite claim processing of drugs billed with a not otherwise classified (NOC) code.

Visit our website to access the [clinical criteria information](#).

Prior authorization clinical review of non-oncology use of specialty pharmacy drugs will be managed by Anthem's medical specialty drug review team. Review of specialty pharmacy drugs for oncology use will be managed by AIM Specialty Health® (AIM).

Clinical Criteria	HCPCS or CPT Code(s)	Drug
**ING-CC-0196	J3490, J9999, J3590	Zynlonta
**ING-CC-0197	J3490, J3590, J9999	Jemperli
*ING-CC-0199	J3490, J3590, C9399	Empaveli

* Non-oncology use is managed by Anthem's medical specialty drug review team.

**Oncology use is managed by AIM.

Quantity limit updates

Effective for dates of service on and after November 1, 2021, the following specialty pharmacy codes from current or new clinical criteria documents will be included in our quantity limit review process.

Please note, inclusion of national drug code (NDC) code on your claim will help expedite claim processing of drugs billed with a not otherwise classified (NOC) code.

Pharmacy information available on anthem.com

Published: Aug 1, 2021 - **Products & Programs** / Pharmacy

For more information on copayment/coinsurance requirements and their applicable drug classes, drug lists and changes, prior authorization criteria, procedures for generic substitution, therapeutic interchange, step therapy or other management methods subject to prescribing decisions and other requirements, restrictions or limitations that apply to certain drugs, visit anthem.com/pharmacyinformation. The commercial and marketplace drug lists are reviewed and updates are posted to the website quarterly (the first of the month for January, April, July and October).

- To locate the commercial drug list, select 'Click here to access your drug list'.
- To locate the Marketplace Select Formulary and pharmacy information, scroll down to 'Select Drug Lists', then select the applicable state's drug list link.

Federal Employee Program (FEP) pharmacy updates and other pharmacy related information may be accessed at www.fepblue.org > Pharmacy Benefits.

Change in email submission of service requests for Federal Employee Program® members

Published: Aug 1, 2021 - **State & Federal** / Federal Employee Plan (FEP)

Effective **November 1, 2021**, in order to help ensure our member's security, the Blue Cross and Blue Shield Federal Employee Program (FEP®) will be decommissioning the Utilization Management (UM) email address for processing eReviews, FEPE-Reviews@anthem.com. As an alternative, FEP offers providers a secure online portal, Interactive Care Reviewer (ICR).

About the ICR portal

ICR is Anthem's innovative UM portal that allows providers, in addition to phone or fax, to submit prior authorization requests and to provide clinical documentation (including imaging) to support initial and continued stay reviews. This enables prior authorization requests and clinical information to be transmitted directly to UM staff.

Key features of ICR

- No cost electronic UM solution
- Instant access from any location at any time
- Create a UM preauthorization case and instantly submit it for review
- Attach clinical documents for review – no faxing required
- Check status of any case regardless of the method used to originally submit request

- Complete record of submissions and dispositions – all in one place
- Bi-directional communication

To submit prior authorization service requests electronically, register for use of Interactive Care Reviewer (ICR) **prior to November 1, 2021** on the [Availity portal](#).

For more information on Anthem ICR, including training resources:

<https://www.anthem.com/provider/prior-authorization/interactive-care-reviewer/>

Register for ICR via the Availity portal: <https://www.availity.com/provider-portal-registration>

Need help registering? View this video: [How to Access Availity and Register](#)

As a reminder, in addition to using ICR on the Availity portal, you can submit authorizations, to FEP UM by phone or fax:

- FEP UM precertification toll free: 800-860-2156
- FEP UM precertification fax: 800-732-8318
- FEP UM Advance Benefit determination fax: 877-606-3807
